David,

Are you the main Tower Standard contact?

Please see message below.

Subject: RE: Tower Standard QAPP Review

Hello Sherry,

Attached is my standard RRB QA review form for the START IV QAPP– this is based off of the national QAPP requirements doc (QA-R5) so TetraTech’s QA contact should be familiar. Overall, the START QAPP is far too vague to apply directly to the project, but they can add the project-specific needs listed in this form directly to the work plan and forego making a QAPP if they wish.

Let me know if you have any questions, also I can contact TetraTech directly if you prefer, though I didn’t hear back from anyone yesterday when I reached out.

Zack

Zach,

I received the attachment from Sam Chummar, Superfund Project Officer for the START contract.

Sam or Steven,

Do you know how we can acquire a copy of the general contract QAPP? Our QA reviewer wants to have a copy to start becoming familiar with it.

Sherry

Here's what I sent. If you can find the QAPP on our end I'll tell them not to worry about it. Haven't heard back yet.

Hello all,

Sherry Kamke forwarded your contact information to me – I will be conducting the QAPP review for the Lac du Flambeau project. I understand you asked if the general contract QAPP would be adequate for the project – likely this is not the case, as parts of the quality system requirements are project-specific and a general QAPP wouldn't address these. However, oftentimes these extra project-specific needs can be discussed in the field work plan and not require a separate QAPP. Can you please send me the general QAPP you are referring to and I can see what aspects would need to be addressed in the work plan/project-specific QAPP.

Thanks,

Zack Sasnow
